Please provide any additional comments regarding the instructor or course.

- This professor was too smart. He didn't know how to teach the students
- Eduardo was very thorough and helped understand the content of the class well.
- It is hard to understand the material. For the homework given I would state my answer and he would simply say no. Then not give me an explanation, or five me an explanation and I still didn't understand.
- The exams were extremely hard
- He did a excellent job.
- didn't look out for the students' learning and understanding of the material. While he knew all the material really well, he didn't project this knowledge well
