December 19, 2022

Dear Dear Sir/ Madam,

I am a economist and a data scientist with a strong background in econometrics, time series, quantitative analysis, statistical data analysis, machine learning. I would welcome the opportunity to speak with you directly regarding the “Risk Management - Model Analyst” position at Wintrust Financial Corp.

My field of research is in macroeconomics, applied econometrics, credit analysis and early warning system of financial crises. I obtained my Ph.D. in Economics from the University of Wisconsin - Milwaukee (UWM) in September 2022 with a dissertation on “Measuring Credit and Property Prices Gaps”. In addition, I have earned a Master’s in University of Illinois at Chicago in economics. And I did my Bachelor in Coe College, Iowa in economics and business administration with a minor in Mathematics. Currently, I have attained the STEM OPT work authorization and I am available to start working for 3 years without sponsorship. Finally, I am more than willing to move to the city of Chicago where I had many beautiful memories of.

I am sharing my resume for more information about my expertise and research publications here. My experience as an economist includes more than five years of experience working with credit data, asset pricing, forecasting methods, causal models and quantifying risk. All my records in academia and industry show my solid background in my field of study, theoretical and statistical aspects.

I have demonstrated the perseverance, commitment, and ambition necessary to succeed in a highly competitive environment throughout my education. I would be grateful if you could spare the time on my documents. If you desire any additional information not included in my resume, please contact me at my phone number or email address above.

Thank you in advance, and I am looking forward to hearing from you.

Sincerely,

Nam Nguyen
