Please provide any additional comments regarding the instructor or course.

- I really was happy with the teaching and layout of this course. I appreciate Edwards availability and patience to work with the students to really stress the lessons. I was just surprised on how big the curve for this class was and am not sure if that is a good or bad thing
- Eduard is a great professor as he has great examples and is able to explain everything he does in class and encourages questions. Exams and homework are great together and result in great performances on exams. Really good dude!
- His fun bubbly personality makes it so much fun to go to class. He has a lot of real world applications that help
- Lectured could be slightly more engaging.
- Made macroeconomics way more understandable. Tests were great. One part of the exam tripped up a ton of people and I found it to be a bit unhelpful that it wasn't explained or taught how to answer. But I understood his purpose for testing us that way.
- Eduard put a lot of energy into his lectures. He used helpful examples and did not assign us too much material (just the right amount to be practicing the concepts). He proved to be adaptable to what the students requested/asked.
- Really helpful and great teaching
- Eduard was very knowledgeable and made things very understandable.
- Overall, the course is rather difficult. The exams were difficult, but the instructor was passionate and very knowledgable about the materials.
- I really appreciated the way Eduard tried to make class fun and entertaining. He was also very helpful when giving real life examples and explaining the material. I felt much more confident in Eduards class than my previous Econ lecture from last year.
- Great teacher. 10/10
